

Invitation to the

HyperTransport Symposium 2009

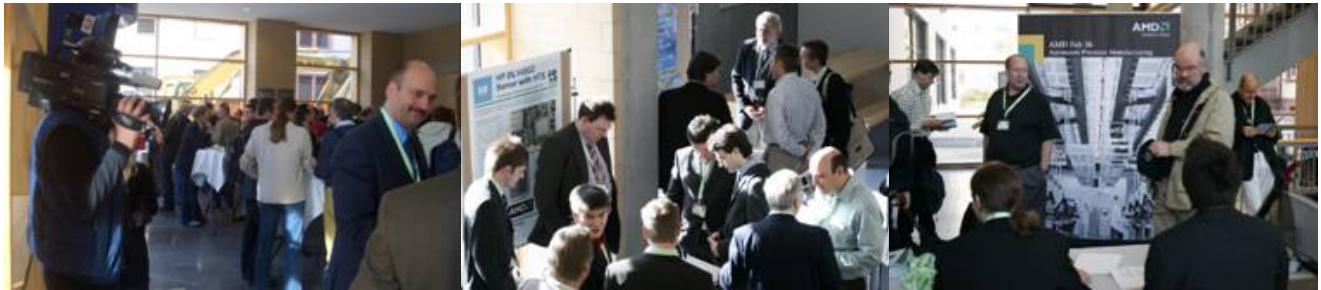

organized and hosted by the University of Heidelberg's

HyperTransport Center of Excellence (HTCE)

HyperTransport in Constant Evolution

- **Learn about HT Technology's Progress and New Ways to Enable Highly Scalable System Architectures**
 - Directly from industry leaders and academic experts
- **Spot Opportunities to Boost Your Company's Product and Business Competitiveness**
- **Leverage the [First International Workshop on HyperTransport Development, Research and Applications](#)**
 - High quality HT forum for industry, developers, scientists, and researchers working on product developments and projects focused on or enabled by HT technology
- **Familiarize with HTCE's HT-Core IP, HTX/HTX3 Reference Designs and Validation Services**
 - Available to open industry for efficient product development and time-to-market
- **Network with HT Experts and Users**
 - Explore Technology Synergies and Business Partnership

Proven “Share & Win” HT Ecosystem Tradition and Value

→ Builds on Success of First HyperTransport Symposium (2007)

- With industry and academia attendees from the U.S., Europe and Asia

→ Delivers High Value Technology Expertise and Vision to HT Community and Industry

- In the best tradition of our open HyperTransport technology standard

Air Fare Discounts Make for Great ROI

Airlines are currently offering interesting and in some case significant air fare discounts. We recommend that you check directly with the airlines, as agencies like Orbitz, Travelocity, etc. may not offer such special discount packages.

The closest air hub is Frankfurt. From there, InterCity Express (ICE) trains will swiftly take you to Mannheim in just 30 minutes. Train reservations/tickets can be purchased online (by credit card) and printed on your local printer. Simply click on the ICE train image above to connect with the Deutsche Bahn (German Railways) ticketing web page in English.

Per-person Frankfurt-Mannheim round trip ticket does not exceed \$80.00.

Hotel Accommodations

Please visit the HyperTransport Symposium event page [here](#) for hotel recommendations, rates and web sites. It is always best to call hotels directly and check for special rate discounts.

HyperTransport Symposium 2009 is a "Must Attend" Event

For Any Company Invested or Planning to Invest in HT Technology

For more information and or questions about the event feel free to contact:

Prof. Ulrich Brüning - HTCE Director
